Team Peace Sprint Retrospective

Date: 12/18/2023

What Went Well?

1. Phong - Completed all deliverables for Milestone 2
2. Jack - Implemented the Mental health check, was a big success
3. Devin - Much granular separation of work, split low-level design work
4. Yoshiki - The team found time to finish work even during finals week
5. Zarif - Team was able to get together to work efficiently on complex work items.

What Went Wrong?

1. Jack - Due to separating work through expertise, one group member handled significantly more work than other members
   a. IE: Phong
2. Devin - Not enough team members had intensive work on the code base

Action Plan

1. Will divide work more evenly and make sure that every team member has a substantial amount of work to do.
2. Keep each other accountable as well as having experienced team members help others out with delegated code.

Notes

- Zarif will be the scrum master for the next sprint.
- Finals week significantly affected team member availability and focus.
- Next sprint will resume January 8th 2024
